MONTANA BOARD OF OIL &  
GAS CONSERVATION • BILLINGS

## Underground Injection Control (UIC) Permit Application Fairview Field

The following is submitted in support of our application to permit the drilling and completion of the Raffaell 17-1 SWD well for the purposes of water injection into the Dakota Group and related rocks within the proposed Fairview Field, as required by Rule 36.22.1403 of the Rules and Regulations of the Montana Board of Oil & Gas Conservation.

### 1(a) Well Locations:

The Raffaell 17-1 SWD well has been proposed for drilling and completion of a water injection within the Fairview Field in Richland County, Montana as described below. Appendix I, depicts the surface location and a circle of a quarter ¼-mile radius representing the area of review (AOR) for this well.

Raffaell 17-1 SWD  
508' FNL, 189' FWL NWNW  
Sec. 17-T25N-R59E

### 1(b) Wells Located within the ¼-mile Area of Review (AOR):

There are currently two oil wells active within the 1/4-mile AOR. The Mayson Phoenix 17-20 #1H (25-083-23353) (TOC at 1,926') and the RKT Carda 7-6 #1H (25-083-23352) (TOC at 2,104'). Both wells target the Bakken interval with horizontal kick off points around 9,900' TVD and laterals running in the AOR around 10,300' TVD.

### 1(c) Location of All Pipelines:

The Raffaell 17-1 SWD surface facilities will be constructed on the same pad as the injection well.

Injection fluids will come from multiple oil wells in the area. The Raffaell SWD will be tied into Hydra's existing Leviathan saltwater gathering line with the possibility of expansion in the future.

### 1(d) Area Producing Formations, Fresh Water Aquifers and Water Well Information:

The Ratcliffe, Mission Canyon, Bakken and Red River are formations that are producing or have been productive within T25N R59E in Richland County, MT. The Ratcliffe and Mission Canyon produce between 8,922-9100'. The Middle Bakken produces between 10,430-1480'.

Fresh water well data was obtained from the Montana Department of Natural Resources and Conservation, Water Resources, Division. There are two fresh water well which produces within the ¼-Mile AOR of the proposed injector.

<u>Location</u>	<u>S-T-R</u>	<u>Well ID</u>	<u>Well Name</u>	<u>Depth</u>

NENE	18-25-59	148596	Vanderhoof	50'

RECEIVED

JUL 12 2022

Any potential USWDs are protected from the proposed injection zone by surface casing to set at 1,845' cemented to the surface. The production string, tubing and an injection packer will result in further isolation of fresh USWDs from injected fluids.

**1(e) Name and Geological Description of Injection Zone:**

The Lower Cretaceous Inyan Kara within the Dakota Group is roughly 476' thick in this area based on grid tops for the Inyan Kara and the lower confining Swift formation. The Inyan Kara consists of a sequence of alternating fluvial and deltaic sands, silts, and shales. It unconformably overlies the Swift formation. There are several prospective porosity intervals for injection from - 3,270' to -3,340' SSTVD with sand packages ranging from 40' to 60' in thickness.

The Cretaceous Mowry formation is the overlying confining formation for the Inyan Kara. The Mowry is estimated to be approximately 179' thick and comprised of black to gray, siliceous, fissile shales and siltstones containing bentonite layers.

The Jurassic Swift formation is the lower confining formation for the Inyan Kara. It is predominantly a transgressive-regressive, clastic, shallow marine deposit composed of dark-gray to greenish shales, and slightly calcareous, glauconitic siltstones and sandstones. The basal 150' to 200' are predominantly beds of slightly calcareous, dark-gray to greenish, waxy shales, commonly interbedded with glauconitic siltstones and sandstones with occasional carbonate units consisting of sand-sized skeletal packstones and grainstones. The upper half of the Swift is mostly shaly, glauconitic siltstones and sandstones with associated shales. The Swift formation is approximately 7500' thick in this area.

**1(f) Additional Information on Producing Wells within the AOR:**

The The Mayson Phoenix 17-20 #1H (25-083-23353) (TOC at 1,926') and RKT Carda 7-6 #1H (25-083-23352) (TOC at 2,104') are active oil wells within the AOR. The wells have adequate cement height and lithology for injection.

**1(g) Open Hole Logs:**

The Raffaell 17-1 SWD will be a new drill SWD. The logging program will consist of a CBL/CCL/GR log ran from TD to Surface during the completion of the well. Any logs and test data run on the Raffaell 17-1 SWD will be supplied to MBOGC.

**1(h) Description of Wellbore Construction:**

Appendix IV, attached to this document is the MBOGC's Form 2 requesting drilling and completing the subject well as an SWD. Appendix V, depicts the proposed wellbore configuration for the Raffaell 17-1 SWD. Perforations will be selected after logs will be run. Appendix VI, illustrates the plan for completion of the subject well. The Dakota Group perforations will be acidized with 12,000 gallons of 15% HCL using rock salt for diversion with a maximum allowable treating pressure of 5,000 PSIG at the wellhead during stimulation.

The 8-3/4" Intermediate section will be drilled to 5,780', just above the first sand encountered in the Inyan Kara, where 7" casing will be ran to TD and cemented into place.

**1(i) Description of Injection Fluid:**

The Raffaell 17-1 SWD will primarily be used to inject produced water from wells producing from the Bakken formation in the surrounding area. Water from the Red River, Madison and other producing intervals of the Williston Basin may also be disposed of in the Raffaell 17-1 SWD, depending on future development plans. Appendix VII, depicts a representative water analyses from a Bakken well in the area well that will be injected at the Raffaell 17-1 SWD. The Dakota formation has been the most prevalent disposal domain throughout Eastern Montana and North

**1(j) Names of Owners of Record:**

The surface owners and mineral owners within the AOR are presented in Appendix VIII.

Hydra MT, LLC has notified the current operators, surface owners and lease owners in accordance with 36.22.1410 1) notification requirements for an underground injection permit. Appendix IX is an affidavit attesting to the fact that notices have been mailed.

**1 (k) List of Appendices:**

- I        ¼-Mile Area of Review Map
- II       Plat of SWD Location
- III      Representative Log
- IV      Sundry Notices
- V       Proposed Wellbore Schematic
- VI      Proposed Completion Procedure
- VII     Water Analysis – Source Waters
- VIII    List of Surface Owners/Mineral Owners in ¼-Mile AOR
- IX      Affidavit of Notification to Landowners
- X       Example of Landowner Notifications of Application for Injection
- XI      Notice of Intention to Apply for a Class II Well.
- XII     Affidavits of Publication – Helena & Wolf Point

**Objective:****A. OPERATIONAL REQUIREMENTS**

1. Prior to each major operation, hold a pre-job safety/ planning meeting (**PJSM**) with all personnel involved in the operation. Discuss the upcoming operation and safety concerns and solicit feedback from all personnel involved.
2. Keep track of daily activities on your Daily Report.
3. Inspect any tanks prior to filling.
4. Physically caliper, measure, and photograph ALL tools that enter the well bore.

**B. COMPLETE THE WELL FOR INJECTION**

1. Contact MBOGC within 24 hours of commencement.
2. Set and test workover rig anchors.
3. Move in and rig up workover rig, mud pump, mud tank, power swivel, pipe racks, catwalk, and 2-400 bbl tanks.
4. Move in and unload 6000' 2-7/8" PH6 work string on pipe racks.

**Raffaell 17-1 SWD  
Richland Co., MT**

MONTANA BOARD OF OIL &  
GAS CONSERVATION • BILLINGS

- a. Visually inspect before use.
5. Install a 7-1/16" 5000 psi BOP with 2-7/8" pipe rams/blind rams and a 5000 psi Washington Head.
6. Pick up and go in hole with a used 6" rock bit w/2-7/8" work string.
7. Trip in hole to Float Collar at est. depth of 5,740'.
8. Circulate hole w/10# brine.
9. TOOH. LD first 400'. Stand back rest of string.
10. Rig up Wireline and Run CBL to verify cement across and above the Dakota
11. RU Coil Tubing to Perforate the Dakota (all perms = 1 spf, 72 degree phasing). Pump proppant to jet cut perforations in 7" casing. Determine shot depths based off of CBL.
12. Trip in hole with 7" packer on 2-7/8" work string and set packer 4,870' to acidize the perms
13. Acidize perms with:
  - a. 12,000 gal 15% HCL containing mud cleanout surfactants and 1 ppg rock salt pumped per attached procedure. Ramp treatment pressure up to 10 BPM. Do not exceed tubular burst strength during treatment.
  - b. Follow acid with 400 bbl fresh water at 10 BPM. Displace fresh water with tbq volume of salt water.
  - c. Record ISIP, 5 minute, and 10 minute shut-in pressures. Pump test injection zone at 2- 10 BPM. Record injection pressures during injectivity test.
14. Release packer and trip out of hole with 2-7/8" work string. Lay down work string and packer.
15. Trip in hole with 7.00" Arrowset 1-X Nickel coated packer and 4-1/2" tubing. Set packer at 4,870' and displace annulus with 10 ppg brine treated with packer fluid chemical.
16. ND BOP/ NU injection wellhead. Test casing-tubing annulus to 1,000 psi with MBOGC inspector as witness. Install permanent pressure gauge on casing-tubing annulus to monitor pressure.
17. Rig down and move out workover rig.

Re: Proposed Private Saltwater Disposal Well

**Location of proposed Disposal Well and Facility (Raffaell 17-1 SWD)**

NW/4 NW/4 Section 17, Township 25N Range 59E, Richland County, MT

Please be advised that Hydra MT LLC (Hydra) has applied to the Montana Board Oil and Gas Conservation (MBOGC) to drill a saltwater disposal well and construct an associated facility at the above detailed location. Hydra will be seeking a final approval from the MBOGC on August 18<sup>th</sup>, 2022, at a hearing in Billings, MT at the MBOGC Hearing Room at 2535 St. John's Ave, Billings, MT, beginning at 9:00 am.

Pursuant to the requirements of project application and regulations of the MBOGC, you are hereby notified of this project.

Respectfully,

*Justin L. Payne*

Re: Proposed Private Saltwater Disposal Well

**Location of proposed Disposal Well and Facility (Raffaell 17-1 SWD)**

NW/4 NW/4 Section 17, Township 25N Range 59E, Richland County, MT

Please be advised that Hydra MT LLC (Hydra) has applied to the Montana Board Oil and Gas Conservation (MBOGC) to drill a saltwater disposal well and construct an associated facility at the above detailed location. Hydra will be seeking a final approval from the MBOGC on August 18<sup>th</sup>, 2022, at a hearing in Billings, MT at the MBOGC Hearing Room at 2535 St. John's Ave, Billings, MT, beginning at 9:00 am.

Pursuant to the requirements of project application and regulations of the MBOGC, you are hereby notified of this project.

Respectfully,

*Justin L. Payne*

**Re: Application for UIC Permit and Authorization to Drill a Class II Injection Well,  
Raffaell 17-1 SWD in NWNW of Sec. 17-T25N-R59E, Richland County, MT**

Dear Mr. Hudak:

Hydra MT, L.L.C. respectfully requests approval of an Underground Injection Control (UIC) permit for the referenced location and as described in the attached application. Hydra has provided notice to appropriate parties within the ¼ mile area of review of the proposed well location and requests that the application be placed on the docket for the MBOGC hearing scheduled for August 18, 2022.

If you have any questions concerning the enclosed application, please contact myself at (713) 360-7705.

Sincerely,

Pete Larsen  
VP - Midstream

**NOTICE OF TRUSTEE'S SALE**  
To be sold for cash at a Trustee's Sale on October 27, 2022, at 11:00 AM on the front steps of the Lewis and Clark County Courthouse located at 228 Broadway, Helena, MT 59601, the following described real property situated in Lewis and Clark County, State of Montana:  
Lot 43 of the Grande View Addition in Lewis and Clark County, Montana, as shown on the plat filed under Doc. No. 241935.  
More commonly known as 3263 Grand View Road, East Helena, MT 59635.

Nathan J. Bishop, as Grantor, conveyed said real property to Helena Abstract & Title Co. as Trustee, to secure an obligation owed to Mortgage Electronic Registration Systems, Inc., as designated nominee for First Community Bank, beneficiary of the security instrument, its successors and assigns, by Deed of Trust dated on March 10, 2017, and filed for record in the records of the County Clerk and Recorder in Lewis and Clark County, State of Montana, on March 13, 2017, as Instrument No. 3302762, in Book M52, at Page 5494 MTG, of Official Records.  
The Deed of Trust was assigned for value as follows:  
Assignee: Lakeview Loan Servicing, LLC  
Assignment Dated: March 7, 2019  
Assignment Recorded: November 21, 2019  
Assignment Recording Information: as Instrument No. 3346563, in Book M56, at Page 3244 ASSGN.

All in the records of the County Clerk and Recorder for Lewis and Clark County, Montana.  
Jason J. Henderson is the Successor Trustee pursuant to a Substitution of Trustee recorded in the office of the Clerk and Recorder of Lewis and Clark County, State of Montana, on October 12, 2021, as Instrument No. 3387588, in Book M60, at Page 519 SUBST, of Official Records.  
The Beneficiary has declared a default in the terms of said Deed of Trust due to the Grantor's failure to make monthly payments beginning January 1, 2019, and each month subsequent, which monthly installments would have been applied on the principal and interest due on said obligation and other charges against the property or loan. By reason of said default, the Beneficiary has declared all sums owing on the obligation secured by said Trust Deed immediately due and payable. The total amount due on this obligation is the principal sum of \$145,174.14, interest in the sum of \$19,642.05, escrow advances of \$18,329.09, other amounts due and payable in the amount of \$1,268.68 for a total amount owing of \$184,414.16, plus accruing interest, late charges, and other fees and costs that may be incurred or advanced.

The Beneficiary anticipates and may disburse such amounts as may be required to preserve and protect the property and for real property taxes that may become due or delinquent, unless such amounts of taxes are paid by the Grantor. If such amounts are paid by the Beneficiary, the amounts or taxes will be added to the obligations secured by the Deed of Trust. Other expenses to be charged against the proceeds of this sale include the Trustee's fees and attorney's fees, costs and expenses of the sale, and late charges, if any.

The Beneficiary has elected, and has directed the Trustee to sell the above described property to satisfy the obligation.

The sale is a public sale and any person, including the Beneficiary, excepting only the Trustee, may bid at the sale. The bid price must be paid immediately upon the close of bidding in cash or cash equivalents (valid money orders, certified checks or cashier's checks). The conveyance will be made by Trustee's Deed, without any representation or warranty, including warranty of title, express or implied, as the sale is made strictly on an "as-is, where-is" basis, without limitation, the sale is being made subject to all existing conditions, if any, of lead paint, mold or other environmental or health hazards. The sale purchaser shall be entitled to possession of the property on the 10th day following the sale.

The Grantor, successor in interest to the Grantor, or any other person having an interest in the property, has the right, at any time prior to the Trustee's Sale, to pay to the Beneficiary, or the successor in interest to the Beneficiary, the entire amount then due under the Deed of Trust and the obligation secured thereby (including costs and expenses actually incurred and attorney's fees) other than such portion of the principal as would not then be due had no default occurred and by curing any other default complained of herein that is capable of being cured by tendering the performance required under the obligation or to cure the default, by paying all costs and expenses actually incurred in enforcing the obligation and Deed of Trust by Successor Trustee's and attorney's fees. In the event that all defaults are cured the foreclosure will be dismissed and the foreclosure sale will be canceled.

The scheduled Trustee's Sale may be postponed by public proclamation up to 15 days for any reason. In the event of a bankruptcy filing, the sale may be postponed by the Trustee for up to 120 days by public proclamation at least every 30 days.

If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Successor Trustee and the successful bidder shall have no further recourse.

This is an attempt to collect a debt and any information obtained will be used for that purpose.  
Dated this 17th day of June, 2022, Jason J. Henderson Substituted Trustee 36 2nd Avenue East Dickinson, ND 58601 Telephone: 801-355-2886 Office Hours: Mon-Fri, 8AM-5PM (MST) Fax No. MT 10140

## Notices

## Legal Notices

**LEGAL NOTICE**  
Notice is hereby given that the Broadwater County Planning Board will be taking comments regarding a proposed subsequent minor subdivision, Greenway Subsequent Minor Subdivision. A public hearing will be held on Wednesday, July 27th at 6:00pm in the Flynn Building located at 416 Broadwater Street, Townsend. The project subdivision is located in portions of Sections 28 & 30, Township 3 North, Range 1 East, Broadwater County. The property is located off of Kite Drive and Mississippi Drive, approximately five and a half miles (5.5) miles northwest of the 1900/gateway 287 interchange. There are 5 lots being reviewed ranging from 1.00 to 1.28 acres in size. Anyone wishing to review the proposed new information is encouraged to stop at the Clerk and Recorder's Office in Townsend to review the same. Written comments are also being accepted.

**NOTICE OF TRUSTEE'S SALE**  
To be sold for cash at a Trustee's Sale on October 13, 2022, at 11:00 AM on the front steps of the Lewis and Clark County Courthouse located at 228 Broadway, Helena, MT 59601, the following described real property situated in Lewis and Clark County, State of Montana:  
A tract of land located in and being a part of the N1/2 of Section 12, Township 10 North, Range 4 West P.M.M., and being more particularly described as follows:  
Beginning at the NE corner of said Section 12; thence S. 89°22'28" E., 3181.44 feet; thence S. 89°16'37" W., 360.00 feet to the true point of beginning of the herein described tract; thence S. 00°00'00" W., 242.12 feet; thence S. 89°16'37" W., 420.23 feet to a point on the Eastern S.O.W. line of the Burlington Northern Railroad; thence N. 26°25'26" E., 272.08 feet; thence N. 89°16'37" E., 259.14 feet to the true point of beginning, as disclosed by Certificate of Survey filed under Document Number 282198, records of Lewis and Clark County, Montana. (Sometimes referred to as the South portion of Lot 10 of Racetrack Meadows Subdivision).  
More commonly known as 4420 Last Straw Drive, Helena, MT 59601.

Rick D. Strobel and Cassandra L. Strobel, as Grantors, conveyed said real property to First Montana Title, as Trustee, to secure an obligation owed to Wells Fargo Home Mortgage, Inc., by Deed of Trust dated on March 27, 2002, and filed for record in the records of the County Clerk and Recorder in Lewis and Clark County, State of Montana, on March 29, 2002, as Instrument No. 3016828, in Book M26, at Page 2371, and modified pursuant to the Modification recorded on June 12, 2019, as Instrument No. 3338001, in Book M53, Page 3071, of Official Records.  
The Deed of Trust was assigned for value as follows:  
Assignee: EMC Mortgage Corp.  
Assignment Dated: May 24, 2007  
Assignment Recorded: March 6, 2008  
Assignment Recording Information: as Instrument No. 3144263, in Book M37, at Page 9924.

All in the records of the County Clerk and Recorder for Lewis and Clark County, Montana.  
Jason J. Henderson is the Successor Trustee pursuant to a Substitution of Trustee recorded in the office of the Clerk and Recorder of Lewis and Clark County, State of Montana, on May 6, 2022, as Instrument No. 3397933, in Book M60, at Page 9997, of Official Records.  
The Beneficiary has declared a default in the terms of said Deed of Trust due to the Grantor's failure to make monthly payments beginning June 1, 2020, and each month subsequent, which monthly installments would have been applied on the principal and interest due on said obligation and other charges against the property or loan. By reason of said default, the Beneficiary has declared all sums owing on the obligation secured by said Trust Deed immediately due and payable. The total amount due on this obligation is the principal sum of \$144,687.95, interest in the sum of \$16,033.36, escrow advances of \$10,544.30, other amounts due and payable in the amount of \$1,724.42 for a total amount owing of \$172,990.02, plus accruing interest, late charges, and other fees and costs that may be incurred or advanced.

The Beneficiary anticipates and may disburse such amounts as may be required to preserve and protect the property and for property taxes that may become due or delinquent, unless such amounts of taxes are paid by the Grantor. If such amounts are paid by the Beneficiary, the amounts or taxes will be added to the obligations secured by the Deed of Trust. Other expenses to be charged against the proceeds of this sale include the Trustee's fees and attorney's fees, costs and expenses of the sale, and late charges, if any.

The Beneficiary has elected, and has directed the Trustee to sell the above described property to satisfy the obligation.  
The sale is a public sale and any person, including the Beneficiary, excepting only the Trustee, may bid at the sale. The bid price must be paid immediately upon the close of bidding in cash or cash equivalents (valid money orders, certified checks or cashier's checks). The conveyance will be made by Trustee's Deed, without any representation or warranty, including warranty of title, express or implied, as the sale is made strictly on an "as-is, where-is" basis, without limitation, the sale is being made subject to all existing conditions, if any, of lead paint, mold or other environmental or health hazards. The sale purchaser shall be entitled to possession of the property on the 10th day following the sale.

The Grantor, successor in interest to the Grantor, or any other person having an interest in the property, has the right, at any time prior to the Trustee's Sale, to pay to the Beneficiary, or the successor in interest to the Beneficiary, the entire amount then due under the Deed of Trust and the obligation secured thereby (including costs and expenses actually incurred and attorney's fees) other than such portion of the principal as would not then be due had no default occurred and by curing any other default complained of herein that is capable of being cured by tendering the performance required under the obligation or to cure the default, by paying all costs and expenses actually incurred in enforcing the obligation and Deed of Trust with Successor Trustee's and attorney's fees. In the event that all defaults are cured the foreclosure will be dismissed and the foreclosure sale will be canceled.

The scheduled Trustee's Sale may be postponed by public proclamation up to 15 days for any reason. In the event of a bankruptcy filing, the sale may be postponed by the Trustee for up to 120 days by public proclamation at least every 30 days.  
If the Trustee is unable to convey title for any reason, the successful bidder's sole and exclusive remedy shall be the return of monies paid to the Successor Trustee and the successful bidder shall have no further recourse.

This is an attempt to collect a debt and any information obtained will be used for that purpose.
